MANAGEMENT DISCUSSION AND ANALYSIS REPORT**OVERVIEW**

The operating and financial review pertains to the management's perspective on the financial condition as well as the operating performance of the Company for the FY2025-26. The following discussion of the Company's financial performance result and operating results should be read in conjunction with the Company's Financial Statements and Notes thereto and other information included elsewhere in the Annual Report. The Company's Financial Statements were prepared in compliance with the requirements of the Companies Act, 2013.

India's battery industry is undergoing a transformative shift, driven by rapid growth in energy demand, increasing penetration of electric vehicles (EVs), expansion of renewable energy capacity, and policy-level support for energy storage solutions. The sector encompasses a wide range of technologies including lead-acid batteries, lithium-ion (Li-ion) batteries, and emerging chemistries such as solid-state and sodium-ion batteries.

With the Indian government's strong focus on decarbonization, domestic manufacturing, and energy security, the battery sector has gained strategic importance. Initiatives such as the Production Linked Incentive (PLI) scheme for Advanced Chemistry Cell (ACC) battery storage, the PM E-DRIVE Scheme to boost EV adoption, and the National Mission on Transformative Mobility and Battery Storage are catalyzing investments and technology transfers in this domain.

India currently remains a large consumer of batteries, but is heavily dependent on imports for lithium cells and advanced components. However, the trend is rapidly shifting toward local value addition and integrated manufacturing. Several Indian and global players are investing in giga-factories, research and development, and recycling infrastructure to build a sustainable battery ecosystem.

The lead-acid battery segment continues to hold a significant share due to its affordability and wide application in automotive and inverter markets. However, lithium-ion batteries are witnessing exponential growth, particularly in two-wheeler EVs, solar storage, telecom, and data center applications. The demand is expected to further accelerate with the scaling up of electric mobility and decentralized renewable power systems.

As the battery landscape evolves, companies with a strong focus on technology, quality, backward integration, and cost efficiency will be well-positioned to capture emerging opportunities. India is poised to become a global hub for battery manufacturing, supported by favorable demographics, rising energy needs, and a growing emphasis on clean and sustainable solutions.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Battery technology has witnessed remarkable progress, resulting in improved energy density, longer lifespans, faster charging capabilities, and reduced costs. Lithium-ion batteries, the most prevalent energy storage solution, have become even more efficient and affordable, making them widely accessible for various applications.

The use of residential energy storage systems has increased owing to awareness and cost parity attained by solar power. These systems allow homeowners to become more energy independent, reduce their electricity bills, and contribute to a more sustainable energy future by enabling a higher penetration of renewable energy in the overall energy mix. As the generation is localised to consumption point it also helps in reduction of T&D losses of the distribution companies.

The deployment of grid-scale energy storage systems has become more widespread and essential for grid stability and renewable energy integration. Large-scale lithium-ion battery installations, flow batteries, compressed air energy storage (CAES), and other innovative technologies are being deployed to balance supply and demand, mitigate intermittency issues, and facilitate the integration of renewable energy sources. These installations have significantly reduced reliance on fossil fuels and improved grid resilience. In the recent past at the National level a number of tenders in the form of RE-RTC, Hybrid, Peak Power tenders, Solar with BESS system, standalone BESS Systems and FDRE bids have been awarded which would propel adoption of Battery Energy Storage Systems in India. BESS provides energy price arbitrage owing to the differential pricing of energy throughout the day, it also provides a mechanism for de-congesting the grid, provides for spinning reserve for frequency and voltage control, time shifting of excess energy etc.

The concept of Vehicle-to-Grid (V2G) has gained prominence, allowing electric vehicles (EVs) to not only draw power from the grid but also supply it back during peak demand periods. EVs, equipped with bidirectional charging capabilities, act as mobile energy storage units, enabling a more flexible and distributed energy system. In India, V2G remains at a pilot and demonstration stage, with early trials led by utilities and academic institutions, and is expected to scale further as regulatory frameworks, bidirectional charging infrastructure, and OEM-integrated hardware mature — with the potential, over time, to create virtual power plants that enhance grid stability, reduce strain during peak hours, and help curtail eventualities from sudden generation loss or grid imbalance.

COMPANY STRUCTURE AND DEVELOPMENTS

During the period under review total revenue of the Company for the year was Rs. 74,519,014/- as against Rs. 104,510,155/- in the previous year. During the period under review the Company incurred loss before tax of Rs. 55,575,469/- against the loss before tax of Rs. 75,325,824/- in the previous year. The loss after tax for the year is Rs. 41,782,929/- against the loss after tax of Rs. 56,499,873/- in the previous year.

Your Company is engaged in the business of manufacturing of batteries, catering to both industrial and consumer segments, with a particular focus on energy storage systems, electric vehicles (EVs).

The Company has faced multiple operational and financial challenges, including, higher input costs, underutilized production capacity, and slower-than-expected market traction.

Despite the setbacks, the Company has made considerable efforts in streamlining operations, optimizing working capital, restructuring its cost base, and upgrading technology and quality systems at the manufacturing facility. Significant steps have also been taken to diversify the product mix and enter new market segments such as lithium-ion batteries and battery energy storage systems (BESS).

India's battery manufacturing sector is poised for exponential growth driven by the Government's initiatives like FAME-II, PLI scheme for ACC battery storage, and the push for electric mobility and renewable energy adoption. The Company is well-positioned to capitalize on these developments.

The Management Discussion & Analysis Report has been included in accordance with the code of Corporate Governance approved by the Securities and Exchange Board of India. The report herein presents the Company Overview, SWOT Analysis, Initiatives by the Company and overall outlook of the Company for the future. This outlook is based on the assessment of the current environment which may vary due to future economic and other developments in the universal arena.

Independent Auditor's Report

To the Members of
Waaree Technologies Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Waaree Technologies Limited** ("the Company"), which comprise the Balance Sheet as at **March 31, 2026**, the Statement of Profit and Loss and the Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026; and its loss and cash flows for the year ended on that date.

Basis for opinion

We have conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters

The key audit matter	How is the matter addressed in our Audit
Provision for warranty obligation: Refer Note B under significant accounting policies and key accounting estimates and judgements for Use of estimates and judgements and Note 8 of the Financial Statements. The Company estimates and provides for liability for product warranties in the year in which the products are sold. These estimates are established using historical information on the nature, frequency, quantum of warranty claims and corrective actions against product failures and the estimates are reviewed annually for any material changes in assumptions. The cost of warranty is net of realisable scrap value and the best estimate of relevant freight expenses. The timing of outflows will vary based on the actual warranty claims. Because of the quantitative significance, complexity and level of judgement involved, there is a risk of inaccurate and inadequate provision for warranty obligation.	We carried out a combination of principal audit procedures involving test of internal controls and substantive testing including: • Understanding the warranty claims process, evaluating the design and implementation of Company's controls in respect of warranty provisioning. • Carrying out reconciliations with the sales data to determine completeness of transactions on which warranty obligation is determined. • Reviewing contracts with customers for terms of warranty contained therein and the estimation of warranty provision on the basis of these terms. • Testing of the data and assumptions used in the calculation of the provision for warranty obligations including those relating to estimates of failure percentages, etc. • Testing documentation relating to actual warranty replacement and an analysis of the actual failure trend with the estimates used in determining future warranty obligation.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report but does not include the financial statements and our auditor's report thereon.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information, and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with the Companies (Accounts) Rules, 2014.

This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection

and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure - B to the Independent Auditors' Report

Referred to in paragraph 2(f) under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date on the accounts of the company for the year ended 31st March, 2026

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Waaree Technologies Limited** ("the Company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the

internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

A. Basis of preparation of Financial Statements:

These financial statements are prepared in accordance with Generally Accepted Accounting Principles in India (GAAP) under historical cost convention on accrual basis. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, and the relevant provisions of the Companies Act, 2013 ("the 2013 Act") / Companies Act, 1956 ("the 1956 Act"), as applicable.

Accounting policies not specifically referred to are consistent and in consonance with generally accepted accounting policies.

B. Use of Estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect amounts in the financial statements and reported notes thereto. Actual results could differ from these estimates. Differences between the actual result and estimates are recognized in periods in which the results are known/materialised.

C. Property, Plant and Equipment:

Property Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any. The cost of an asset comprises of its purchase price (net of cenvat / duty credits availed wherever applicable) and any directly attributable cost of bringing the assets to working condition for its intended use. Expenditure on additions, improvements and renewals is capitalized and expenditure for maintenance and repairs is charged to profit and loss account.

Effective from 1st April 2014, the company has reassessed the useful lives of the fixed assets in line with useful lives mentioned in Schedule II to the Companies Act, 2013.

E. Amortization of Goodwill:

Goodwill arising on business transfer is initially measured at cost (excess of the purchase price over the fair value of the identifiable net assets acquired). Subsequently, the company has provided for amortization of Goodwill using straight-line method over the period of 5 years as per the management estimate.

F. Valuation of Inventories:

Raw Materials & Stores Valued at lower of cost and net realizable value (NRV). However, these items are considered to be realizable at cost, if the finished products, in which they will be used, are expected to be sold at or above cost. Cost is derived on weighted average basis.

Finished Goods / Work in Progress are valued at cost of materials, cost of conversion and fixed production overheads being allocated on the basis of normal capacity of production facilities.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated cost necessary to make the sale.

G. Revenue Recognition:

Sale of goods is recognized on dispatches to customers, which coincide with the transfer of significant risks and rewards associated with ownership.

Interest income is accounted on accrual basis. Income other than interest income is accounted for when right to receive such income is established.

H. Earning Per Share

If any such indication exists, the company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the CGU, to which the asset belongs is less than the carrying amount of the asset or the CGU as the case may be, the carrying amount is reduced to its recoverable amount and the reduction is treated as impairment loss and is recognized in the statement of profit and loss.
